Overview:

SDG #13: Climate Action, aims to take urgent action to combat climate change and its impacts. There are 5 targets that governments and communities must focus on meeting through policies and programmes which include increasing resilience to natural disaster, create national measures to address climate change, improve education, implement commitments, and promote planning and management mechanisms. Six climate positive actions have been stated for governments going forward, emphasizing ‘Green’ societies to accelerate decarbonization, create green jobs, and invest in sustainable solutions.
